Every Heartland RV goes through a 100% dedicated Pre-Delivery Inspection (PDI) before it ever reaches a dealer lot. This process is performed in a facility solely focused on inspecting travel trailers, fifth wheels, and toy haulersâ??no shortcuts. Each RV is thoroughly checked across key systems and components, with multiple tests per area. Beyond functionality, Heartlandâ??s PDI process also inspects fit, finish, and cosmetic details, ensuring your RV meets the expectations our owners have grown to trust. Because quality isnâ??t assumedâ??itâ??s verified.
