

2000 Watt Inverter

FEATURES

- Pure sine wave runs cooler, more efficient and clean
- Dual cooling fans thermally controlled
- Short circuit protection
- USB Outlet 2.1 amps
- ETL Listed to UL 458
- GFCI Outlet 20 amp
- Efficiency: 90%
- On/off switch

SPECIFICATIONS

- Surge power capability (peak power): 4000 Watt
- Battery low voltage shutdown: 9.5 v +/- 0.5 volts
- Continuous output power: 2000 Watt
- Full load maximum operating temperature: 104 degrees Fahrenheit (automatic shutdown)
- Low input voltage shutdown: 9.5V +/- 0.5 volt
- DC input / operating voltage: 9.5-16 volts
- No load minimum operating temperature: 32 degrees Fahrenheit
- Battery low voltage alarm: 9.8 +/- 0.5 volts
- High input voltage shutdown: 16 Volt
- Output wave form: pure sine wave
- 2 year warranty, parts and labor
- Output voltage: 120 volts AC
- GFCI reset-able AC outlet
- Output frequency: 60 Hz
- Full load efficiency: 90%
- Weight: – Item: 11.9 lbs
- Dimensions: 18" x 8.58" x 3.8
