

2023 North American Heartland Owners Rally

JUNE 12 - 18, 2023

Elkhart County Fairgrounds | 17746-D East Monroe Street | Goshen, IN 46528

Updated: 3/2/23 1:08:00 PM

Specific Campsite / Camp Area Information

Legend:

FHU = Full Hook Up. These sites have water, sewer and mostly 50AMP electric. Some FHU sites have only 30AMPS these will be identified as such.

Northwest Sites:

76 FHU sites, 3 have length restrictions:

Site 429: 32 feet

Site 430: 39 feet

Site 452: 34 feet

Individual site selection. Access to this campground is off Ash Street. This campground is a traditional campground layout with established sites. Grass prevails, and there are mostly gravel pads for the rig. Sites back up to each other and the hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

Harley Hill Area:

This location is currently being used by HOC Rally Staff and Rally Vendors. Any sites remaining within the Harley Hill Area will be made available for Rally Attendee selection.

18 FHU sites, no restrictions

Area location selection. This area is away from all other camping areas. Access to this area is off Oak Street. Sites are defined by the location of hookups. The rally parking crew will locate you where appropriate. The entire area is gravel. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

Pork Producers Area: (Mobility challenged)

These sites are close to the rally hall and are suitable for attendees utilizing wheel chairs, walkers, etc.

3 FHU sites, no restrictions

Area location selection. Access to these sites is off Dahlia Lane. These are sites located totally on concrete and are defined by the location of hookups. The rally parking crew will locate you where appropriate. Ramp doors may be opened and closed after parking. However, a fire lane restriction may prevent the ramp door from remaining in the open position.

ECCC Area: (Mobility challenged)

2023 North American Heartland Owners Rally

JUNE 12 - 18, 2023

Elkhart County Fairgrounds | 17746-D East Monroe Street | Goshen, IN 46528

These sites are immediately adjacent to the east end of the Rally Hall (ECCC Building) and are suitable for attendees who are mobility challenged. There is an entry door on this end of the Rally Hall.

5 FHU sites, no restrictions

Area location selection. Access to these sites is off Oak Street. These sites backup to a fence and are defined by the location of hookups. The rally parking crew will locate you where appropriate. The area under the RVs is grass. In front of the RV may be gravel. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum. These sites are immediately adjacent to the east end of the Rally Hall (ECCC Building) and are suitable for attendees who are mobility challenged. There is an entry door on this end of the Rally Hall.

Maple Street Sites: (Mobility challenged)

The two sites at the North end of Maple Street are immediately adjacent to the south side of the Rally Hall (ECCC Building) and are suitable for attendees who are mobility challenged. There are entry doors on this side of the Rally Hall.

Site 296-FHU = max 28 feet

Site 295-FHU = max 39 feet

Site selection. Access to these sites is off Maple Street. These sites back up to a fence and/or buildings and are defined by the location of hookups. The rally parking crew will locate you where appropriate. The entire area is mostly gravel. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

Maple Street Area:

19 FHU sites, all have length restrictions

All sites = 39 feet

Area location selection. Access to these sites is off Maple Street. These sites back up to a fence and/or buildings and are defined by the location of hookups. Placement of rigs is critical in this area so as not to lose any available sites, the rally parking crew will locate you where appropriate. The entire area is mostly gravel. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

Draft Horse Sites:

7 FHU sites, no restrictions

Individual site selection. Access to these sites is off Pecan Street. These sites back up to a fence next to the race track. The site area is mostly grass and is defined by the location of hookups. The rally parking crew will locate you where appropriate. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

2023 North American Heartland Owners Rally

JUNE 12 - 18, 2023

Elkhart County Fairgrounds | 17746-D East Monroe Street | Goshen, IN 46528

Draft Horse Area:

4 FHU sites, all have length restrictions

All sites = max 35 feet

Area location selection. Access to these sites is off Pecan Street. These sites back up to a barn. The area is mostly grass and sites are defined by the location of hookups. Placement of rigs is critical in this area so as not to lose any available sites, so the rally parking crew will locate you where appropriate. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

Draft Horse North Area:

4 FHU 30amp sites, all have length restrictions

All sites = max 32 feet

Area location selection. Access to these sites is off Norval & Jean Poyser Avenue. These sites back up to a barn. The area is mostly grass and sites are defined by the location of hookups. The rally parking crew will locate you where appropriate. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

Infield Area:

34 FHU 50amp sites (with 5 being a bit shorter: 519, 521, 523 and 525, 527)

Access to these sites is off Dorothy Kercher Drive. A dirt drive crosses the dirt race track into the Infield. This dirt drive can become muddy and slippery if there is rain. Note that traffic on the track (horses and tracker grooming equipment) have the right-of-way. The site area is mostly grass. Sites are mostly along each side of the campsite utility line, but some are backed up against the grand stand entertainment stage. Sites are defined by the location of hookups. Placement of rigs is critical in this area so as not to lose any available sites, so the rally parking crew will locate you where appropriate. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

Ring Road Sites:

24 FHU sites + smaller unit (39')

Access to these sites is off Ring Road. These sites back up to an active rail line and trains and train whistles operate 24 hours a day every day. The site area is mostly grass and are defined by the location of hookups. The rally parking assistant will locate you where appropriate. Hookups run along the back. In order to reach the hookups, campers will need hoses and cords that reach the back of their rig plus another 6 feet minimum.

South Area:

73 FHU sites in total. 20 of these sites share common power pedestals. 30amp for one site and 50amp for the other.

2023 North American Heartland Owners Rally
